

# CRYPTIC CLOCKS

Look at the clock face shown above. Around the face are all the letters of the alphabet. Each letter is by its own minute mark. For example the letter A is at 0 minutes, the letter D is at 15 minutes and the letter H is at 35 minutes.

**Use the clock to break the code below.**

Each number corresponds to a minute mark on the clock. If you write the letter down for each amount of minutes given you will spell out a sentence. When you've done that you will know what to do next.

**8 12 51 57 12 42 10 0 8 42 32 20 37 35**
